Office of Fossil Energy

[FE Docket No. EA-100-A]

**Application to Amend Electricity
Export Authorization, San Diego Gas
and Electric Company**

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: San Diego Gas & Electric Company (SDG&E) has applied for renewal of its authority to transmit electric energy from the United States to Canada.

DATES: Comments, protests or requests to intervene must be submitted on or before December 7, 1995.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Office of Fossil Energy, Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-0350.

FOR FURTHER INFORMATION CONTACT: Steven Mintz (Program Office) 202-586-9506 or Mike Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: Exports of electric energy from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act.

On April 19, 1994, the Office of Fossil Energy (FE) of the Department of Energy (DOE) authorized SDG&E to transmit electric energy from the United States to the British Columbia Hydro and Power Authority on a non-firm basis at a maximum rate of transmission of 400 megawatts (FE Order No. EA-100). The term of the authorization was for a period of two years. On September 22, 1995, SDG&E filed an application with FE for renewal of this authority which expires on April 19, 1996. The exported energy would be delivered to Canada over transmission facilities owned by or under the control of members of the Western Systems Power Pool, of which SDG&E is a member.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Order No. EA-100. Consequently, DOE proposes to use the electric reliability review prepared in FE Docket EA-100 in satisfaction of the statutory requirements of section 202(e) of the Federal Power Act. Similarly, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a

categorical exclusion in the FE Docket EA-100 proceeding.

Procedural Matters

Any person desiring to be heard or to protest this application should file a petition to intervene or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Rules of Practice and Procedure (18 CFR 385.211, 385.214). Fifteen copies of such petitions and protests should be filed with the DOE on or before the date listed above. Additional copies are to be filed directly with: James F. Walsh, San Diego Gas & Electric Company, P.O. Box 1831, San Diego, CA 92112 AND Betty Cash Hunter, Power Contracts Administrator, San Diego Gas & Electric Company, P.O. Box 1831, San Diego, CA 92112.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.

Issued in Washington, DC on November 1, 1995.

Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.

DATES: Comments must be submitted on or before January 8, 1996.

ADDRESSES: Office of Enforcement and Compliance Assurance, U.S. EPA, 401 M St. MC 2201, Washington, D.C. 20460.

SUPPLEMENTARY INFORMATION:

compliance assistance through state programs.

Title: Measures of Success for Compliance Assistance Reporting Form. EPA ICR 1758.02. OMB Control Number XXX-XXX.

Abstract: This will be a voluntary collection of program information on the accomplishments of state and regional compliance assistance programs other than those operating under Section 507 of the Clean Air Act (CAA), which will be reporting the same information as part of a larger information collection request being conducted by EPA's Small Business Ombudsman Office pursuant to the requirement of that statute. The information will be collected so that EPA can better understand the effectiveness of compliance assistance programs vis a vis enforcement programs and so that success stories can be shared between state programs. This is a voluntary information collection request. The information will be used by EPA's Office of Enforcement and Compliance Assurance (OECA) in order to evaluate the effectiveness of regional and state compliance assistance programs as a supplementary tool to traditional enforcement methods. EPA regions and state programs will also use the information to learn about other compliance assistance programs. This information collection request will require a burden for third-parties; namely, the small businesses receiving the compliance assistance. States will be asking them about their increased knowledge of regulatory obligations and behavioral changes that result from the compliance assistance offered.

The EPA would like to solicit comments to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The number of state respondents is estimated to be 106 and they will be responding annually. The total annual recordkeeping burden for states is estimated to be 212 hours.

The total annual reporting burden for states is estimated to be 2,438 hours. The average estimated total burden hours per state respondent is 25 hours. The number of third party respondents is expected to be 3,180. The total burden hours for third-parties is expected to be 3,180. The overall total burden hours is 5,618. The average estimated total burden hours per respondent is 1.7 hours. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

Dated: October 30, 1995.

Special Assistant, Office of Enforcement and Compliance Assurance.
